

EUROPEAN VETERAN OUTDOORS RECORDS 2009

compiled by Ivar Söderlind, statistician of EVAA (31.12.2009)

In 2009, up to December 31, I have noted 107 new or modified European outdoor records stadia and 52 of these records also are world records. 81 of the 107 records are brought in 2009 and 40 of these records were set up in WMA Championship in Lahti.

Gitte Karlshoej, DEN in W50 has broken four outdoor world records stadia in 2009: 1500m (4.40.7m), 3000m (9.47.20), 5000m (16.51.17) and 10000m (35.41.90). Sandra Branney, GBR has noted three world records in W55: 3000m (10.13.8m), 5000m (17.52.82) and 10000m (37.09.4). Three outdoor world Records have also been proposed in M70 by Guido Müller, GER: 200m: 26.48/-0.6), 400m (59.34), 300m Hurdles (45.24). To this can be added that Guido is participant in the German world record relay team 4 x 400m (4.17.47) and that he indoors has brought the world records in 200m (26.92) and 400m (59.92).

In 2010 I have to change the Record Lists radically because of new equipments, weights, hurdles distances etc. from January 1 2010.

I and Ove Edlund, my statistician colleague in Sweden, work further with European Records for multievents. Please check the list and help us to make it more complete. I have had very good assistance with the Running from Ken Young, USA, member of the Association of Road Racing Statisticians (ARRS), and with the Road Walk Records from Birger Fält, Sweden, member of ARRS and coordinator of the Race Walking Group. I have also found many results in "All Time World Rankings - Master Athletics" which I have checked with Ken and Birger. (<http://www.mastersathletics.net/All-Time-Rankings-Track-and-Field-Master.365.0.html>)

When two or more results are noted in one age group and event the first noted result is the official record if it is missing some tasks for the second result. Only results with all tasks reported (Birth Date, Date and Place for the Competition etc) are approved as official records. For 100m, 200m, the short hurdle distances, long jump and triple jump outdoors only results reached with up to 2.0 m/sec are accepted (wind-gauge is definitely necessary)!

I have noted if the European Records in this list are Official World Records or better than the Official World Records. Notice that EVAA has decided that only events which are in the program for European Championships will be in the Record List (with exception of 3000m). In 1999 and 2000 we have new javelins in many age groups. In the Record lists I present the records with the new javelin and also the old records with the old javelin if they are better than the new ones. In 2000 we also had new hurdle height 68.6 cm for short and long hurdles in the oldest age groups. The old records with hurdle height 76.2 cm will be left up until it is better results with the lower hurdles (and the same distances between the hurdles). In some Champion Ships wind gauge has been used but in the official result lists it was only noted if the wind was correct or not. (c = correct wind; up to 2.0 m/sec).

****New or modified Records in 2009***

Explanations concerning the Javelins and Discus

(3) The 400g Javelin was used instead of the 500g Javelin;
 A special derived Agefactor for W55: 1.2360 (400/500*1.5450) is used
 1.5450 is the Agefactor for W55 for the 500g Javelin according to
 WMA 2006

(4) The 1.0kg Discus was used instead of the 0.75kg Discus;
 Agefactors for W80: 2.8315 (2002) and for W90: 4.6372 (2002) are used

For all other results both for men and women the agefactors
 according to WMA 2006 are used.

Explanations concerning the Javelins, Shots and Hammers

- (1) The new 800g Javelin was used; Agefactor for M55 1.5698 (1994)
- (2) The old 600g Javelin was used; Agefactor for M70 1.9192 (1994)
- (3) The 4 kg Shot was used ; Agefactor for M80 1.8689 (1994)
; and M85 2.2085 (1994)
- (4) The 76.2cm hurdles was used ; Agefactor for M85 0.7346 (1994)
- (5) The old 600g Javelin was used; Agefactor for M85 2.6793 (1994)

For all other results both for men and women the agefactors according to WMA 2006 are used.

If the record series obtained with manual taking system gives scores higher than a series with electric time system both series are given.

In these cases, where Windaided result Series is obtained, even the best Record Series with aproved Wind is given
